

OXXA®

X-Pro-Flex 51-290

excellent comfort

Characteristics

- super light nitrile foam coating offers a high degree of finger-tip sensitivity and flexibility and increases the productivity of the user
- anti-slip using NFT (Nitrile Foam Technology); the coating gives a good grip on dry, greasy and oily objects
- breathing coating keeps hands dry and cool
- the dark colour means the gloves are extremely suitable for use in areas with a specific degree of contamination, such as garages and workplaces
- packed per pair in attractive retail packaging
- colour: grey/black

Applications

- construction
- industry
- installation engineering
- assembly activities
- transport
- automotive
- paintwork
- general assembly
