

OXXA®

X-Treme-Lite 51-100

Characteristics

- super light polyurethane (PU) coating makes the gloves extremely light and offers a high degree of finger-tip sensitivity and flexibility and increases the productivity of the user
- anti-slip using PU coating: gives a good grip on dry and greasy objects
- 18 gauge (knitting technology with 18 stitches per inch) liner provides still more suppleness for the user
- the thin coating of 0.8 mm offering an abrasive resistance EN protection level 3 and cutting resistance 1
- the X-Treme-Lite is ideal for handling the smallest objects and to operate such (touchscreen) telephone or keyboards
- packed per pair in attractive retail packaging
- colour: blue/black

Applications

- construction and industry
- mechanical fine engineering
- installation engineering
- automobile industry
- checking of maintenance activities
- packaging industry
- general installation of white goods, air conditioning and electrical equipment
